

Useful information and disabled access

If you're coming to St Ebbe's Headington from the main London Rd, turn into Lime Walk by The Britannia Inn and proceed about 200 yards down the road. We are on the right hand side, with a gravelled area and bike racks outside a small purple/grey building.

If you're coming on foot, there is a sloping ramp down to the main doors.

If you're coming by car, there is a driveway just beyond the building and one disabled parking spot at the front of the church.

For general parking, continue down the driveway.

From the car park there is rear access into the building via steps.

If you prefer level access, either park in the disabled space at the front of the building by the main doors or park in the main car park and walk up the drive to the main entrance.

The inside of the building is on one level. There is a disabled toilet in the foyer along with ladies' and gents toilets and a unisex facility.

We have an outside area, accessible via steps at the rear or through side doors (for level access). Children's clubs run in a portacabin behind the main building which has a ramp for wheelchair access.

Please let us know any special needs you might have and how we can help!
